In addition, a fuel supplier may require a Certificate of Use for the following:

- ☐ fuel used to heat private or commercial buildings or facilities (construction and mining companies, please see above exemption categories).
- ☐ fuel used in stationary power plants operating as public utility plants and generating electrical energy for sale to the general public.
- ☐ fuel used in a generator for a domestic purpose in single or multiple unit private dwellings, including mobile homes, but not including watercraft.

Retention period. Each certificate of use must be retained for three years after the end of the year for which this certificate of use is in effect.

Purchaser's sworn statement: The undersigned understands that the fraudulent use of this certificate will subject all guilty parties, upon conviction, to a fine not to exceed \$25,000 or imprisonment for not more than three years, or both, under AS 43.05.290. The undersigned shall, upon request, supply satisfactory evidence establishing the purpose for which the fuel was or will be used.

I declare under penalty of unsworn falsification that I have examined this certificate and to the best of my knowledge and belief it is a true, correct and complete statement and that this fuel will not be delivered to a common storage tank servicing both taxable and non-taxable uses. I understand that if I subsequently use the fuel for a taxable purpose, I am liable for the applicable motor fuel tax on any fuel used for a taxable purpose.
